DETAILED ACTION

1. This action is in response to applicant's application filed on Feb 08, 2006.

Claims 1-20 are pending in the present application.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites a digital signal distributing installation and limitations for the following: "an auxiliary electric power distribution line, a filtering circuit interposed between the electric power distribution line and the auxiliary electric power distribution line, one common housing for holding the filtering circuit and the first coupler and in that the auxiliary electric power distribution line comprises multiple standardized sockets".

Examiner interprets these limitations as shown in Fig. 1 of the applicant's drawing. The search reveals no prior art which teaches the limitations in the context of the claims. Therefore, claim 1 is indicated allowable. Claims 9 and 15 are essentially similar to claim 1 and are indicated allowable.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

References are listed on the PTO-FORM 892
